A report of the monthly income
of the United States for the year
1917, covering the period from
January to August, has been
issued by the Bureau of Economic
Analysis. The report shows that
the monthly income for the year
1917 was \$1,680,000,000, or
\$140,000,000 more than for the
year 1916. The increase was
due to a number of factors, in-
cluding a rise in the price of
wheat, a rise in the price of
cotton, and a rise in the price
of sugar.

**La Follette's Maximum
Amendment Rejected.**

**Final Senate Vote will be

**Sharp Clashes Feature the
Long Debate.**

[BY A. P. DAY WIRE.]
WASHINGTON, Sept. 3.—The
Senate spent today's holiday in
the sharpest clashes of its fight over
war-profits taxation, and again de-
cisively defeated proposals of the
high-tax advocates.

Senator La Follette's maximum
amendment for war-profits taxes,
proposing a flat increase of 70 per
cent. over existing rates, was re-
jected by a vote of 55 to 20. Another
by the Wisconsin Senator for a 65
cent. increase was defeated, 53
to 17.

The final vote on the war-profits
section is to be taken Wednesday,
but the bill's provision as now writ-
ten for an increase of about one-
third, or \$1,060,000,000, is expected
to stand. Tomorrow another amend-
ment by Senator La Follette for a
60 per cent. gross levy will come
up, together with a complete sub-
stitute proposed by Senator Borah
for the Finance Committee's com-
promise provision.

THREE RECRUITS GAINED.
But three recruits were gained in
today's voting by the high-tax ad-
vocates, in addition to the seven-
teen who voted Saturday for Senator
Johnson's maximum proposal of an
80 per cent. tax. Senators King,
McKellar and Trammell voted for
both of the La Follette proposals.

A few additions are expected on
other pending amendments for vari-
ous flat taxes down to 41 per cent.,
but Senator Borah said today after
the vote on Senator La Follette's
maximum amendment that the bill
probably would go to the President
bearing its present total tax levy of
\$2,500,000,000.

Many phases of the war situation
were discussed during the seven-
hour debate. Senator La Follette
delivered another vigorous speech
for higher rates for what he termed
"blood profits." His remarks caused
Senator Simmons, chairman of the
Finance Committee, to suggest that
the bill be amended to include a
"blood" clause, the Senate, and
provoked two hot clashes, in which
both Senators were declared out of
order by the presiding officer.

Senator La Follette contended
that the committee's new plan would
be taken to the President, but he
declared that the bill would be
amended to include a "blood" clause,
the Senate, and provoked two hot
clashes, in which both Senators were
declared out of order by the presiding
officer.

BOTH SIDES CONFIDENT.
The fifth week of debate on the
bill opened with both advocates and
opponents of higher war-profits tax-
ation asserting confidence in the
outcome.

Renewing his attack on the war-
profits section, Senator La Follette
declared the method devised by the
committee for ascertaining the cap-
ital of corporations is unworkable.
Placing authority upon the Sec-
retary of the Treasury to ascertain
the capital of corporations in con-
tested cases, he insisted it would be
tantamount to accepting the state-
ments of the corporations unchanged,
because it would be a physical im-
possibility for that department to
make investigations in the time this
bill would be effective.

Under the substitute proposition
for corporations, by inflation of val-
ues for trade-marks, good will and
other intangibles, to reduce the amount
of their profits so as to lower the
taxes they would be called on to
pay. He called said the United States
Steel Corporation, instead of being
compelled to pay under the original
bill \$76,724,000 on its war profits,
as has been asserted, would pay, ac-
cording to the committee's financial
expert, only \$29,944,000 under both
the original bill and the substitute
provision.

SIMMONS AROUSED.
The Senator aroused Chairman
Simmons by declaring that he pro-
posed to take the lives of our boys,
the heads of our families and all
the people have got," but leave
these money-making corporations
their profits, taking only 72 per cent.
and leaving them 28 per cent. of
their blood profits to add to their
normal peace profits and their cap-
ital unimpaired.

Senator Simmons denied that the
bill would exempt corporations' sur-
plus from taxation and intimated
that Senator La Follette was at-
tempting to hoodwink the Senate.

Senator Simmons later disputed
Senator La Follette's statement that
the bill as recently amended would
not take more taxes from the United
States Steel Corporation than it
would have an originally planned.
Senator Johnson interrupted to
ask Chairman Simmons if the steel
corporation would be compelled to
pay only a tax upon war profits of
about \$59,000,000 instead of \$76,
000,000, as he had declared previ-
ously. The North Carolina Senator
admitted that was substantially cor-
rect.

"The statement then is unchal-
lenged that under the committee's
amendment, the steel corporation
would pay \$59,000,000 in taxes and
that, under the original bill, the
company would pay \$76,000,000, as
stated here, is erroneous and the
corporation would pay a like tax,"
said Senator Johnson. "I wanted to be
sure of the fact that \$76,000,000 was
an error."

THINKS JOHNSON WRONG.
Senator La Follette said he be-
lieved the California Senator had
the wrong idea, adding he believed
the larger sum was correct, but
that under the revised section, the
corporation would only pay \$59,
000,000, thus saving about \$17,000,
000.

He also asked if the amended bill
would reduce the taxes of corpora-
tions and began reading estimates
to show the amounts various cor-
porations would pay under the pro-
visions of the original bill and as
amended. Chairman Simmons as-
serted the Bethlehem Steel Cor-
poration would pay \$26,046,000 under
the original bill, Senator La Fol-
lette said, while the committee's
financial expert estimated it at \$21,
833,944, but the amended bill would
only levy \$12,724,000.

"I maintain the form of amend-
ment is a temptation to all corpora-
tions to swell their capitalization,"
the Wisconsin Senator continued. "It
invites overcapitalization."
"I want to constantly remind the

Sensors that the government is
powerless to hold what the business
of capitalization, for there is no
time in which to make an investiga-
tion."

LA FOLLETTE SEES DANGER.
"We are adopting a plan of finan-
cing the war that is fraught with
the greatest danger to our finances
and is an injustice to the people,"
comes the warning from Senator
La Follette. "This tax bill is 34
per cent. of the total amount that
has to be raised either by bond in-
crease or taxes, if you leave out the
amount loaned to our allies. If you
do take that into account it amounts
to only 14 per cent. We don't know
we are going to collect from our
allies."

"We are starting out this war on a
lower percentage than that reached
the Civil War, that nearly resulted
in the financial ruin of this gov-
ernment, or would mean an average
of the Mexican War. I say that under
the pressure of keeping down the
taxes on corporations and the in-
crease of the war makes our finan-
ces."

"Even Great Britain, with all her
wealth, is compelled to change her
financial system in order to
meet the emergency," he declared. "She
found herself," he declared, "not
terrible to financial ruin, and even
she, with her towering strength,
was forced to throw herself on the
mercy of the world for money."

"Don't let us make the mistake;
sound and rich as we are," he
pleaded. "Estimating 20,000,000 families
in the country, Senator La Follette
said every billion dollars of war expense
would be a burden of \$50 for each
family head. The twenty billion-
dollar war estimate this year,
he declared, would mean an assess-
ment of \$1000 on each family head
—\$200 in cash and an \$800 mort-
gage on every home."

COMPROMISES.
Senator Simmons declared that,
under the bill as it now stands, at
least half the corporations of the
country will be taxed more than be-
fore, the tax alone of the steel cor-
poration amounting to \$183,734,000
this year, while the tax to be paid
by the Du Pont Powder Company
will be \$10,000,000 more and that
of the General Motors, \$1,500,000.
The net increase to be paid by twen-
ty leading corporations of the coun-
try will amount to \$21,130,000, he
said.

Senator Frelinghuysen, opposing
the La Follette proposal, said it was
fraught with great danger to busi-
ness interests.

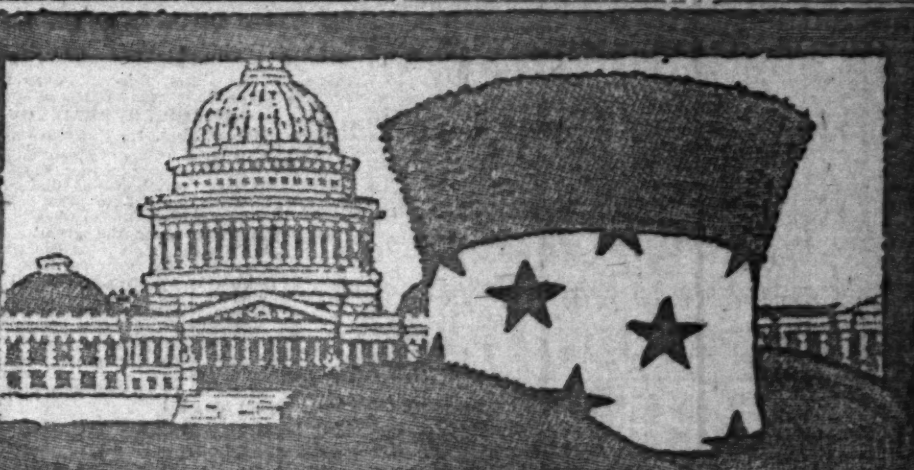

"To impose such unfair taxes thus
impairing industry," he said, "would
practically make certain the victory
of Germany."

Senator Borah addressed the Sen-
ate at length in favor of a tax of
at least 40 per cent.

Citing the increasing war expense
estimates of Secretary McAdoo, Sen-
ator Borah said he believed they cer-
tainly would reach between \$22,
000,000,000 and \$25,000,000,000 and
possibly \$25,000,000,000 for the first
year, including loans to the allies.

"This bill probably will finally pro-
vide \$2,500,000,000 in taxes," he con-
tinued. "There is no record in his-
tory of such a shrinking from duty
by a legislative body. Congress has
met this war with courage and mag-
nitude of means, but when we meet
taxation we shrink from performance
of our manifest duty."

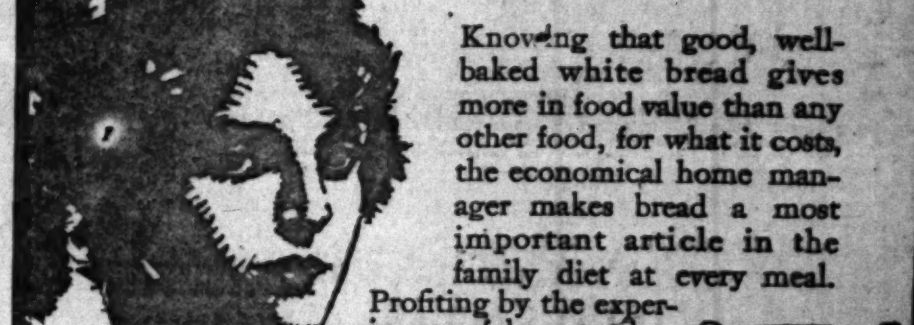

"In taxes the standard of patriotism that men of
wealth are willing to contribute to
the war," he declared, "I do not believe it."
Senator Borah read statements of
President Wilson, Bonar Law and

Goodwin Shuts Out Cubs in Cardinal Contest.

(BY A. P. NIGHT WIRE.)

BROOKLYN (N. Y.) Sept. 3.—

Grover Alexander repeated his iron-man feat by pitching both games of the double-header and winning them, 1 to 0 and 3 to 0. He held the Brooklyn to four scattered hits in the first contest, which was played in the season's record time for the Ebbetts Field of 77 minutes. He was hit more freely in the second game, but the hit and consistent hitting of the Phillies kept him safe.

GEORGE CLINE FOURTH IN QUALIFYING ROUND.

Douglas Grant Has One Stroke Margin on San Jose Player.

(BY A. P. NIGHT WIRE.)
DALLAS, Sept. 3.—Douglas Grant won the qualifying round here today in the California State championship golf tournament by a margin of one stroke from C. H. Walter of San Jose. The Burlingame player had an aggregate of 144 for the 32 holes, 74 for yesterday and 70 for today. His long game was excellent but he was somewhat erratic on the greens.

Dr. Walter made a score of 70 in the morning. It looked as though it was going to be easy for the San Jose man in the early part of the afternoon round as he had only won twenty-nine strokes after holing out on the seventh green. But the eighth and ninth spelled disaster.

Mike Gibbons wins an easy bout from Dillon.

(BY A. P. NIGHT WIRE.)
TERRE HAUTE (Ind.) Sept. 3.—Mike Gibbons of St. Paul shaded Jack Dillon of Indianapolis in every round of their ten-round, no decision fight, according to sport writers who saw the contest here today.

Gibbons took the offensive in the first round and kept it, with the exception of the third round, when Dillon rallied and won an even break.

The Tail of the Cat.
The question having arisen, "Why does the cat have a tail?" the scientists seem willing to answer it with another question, "How would the cat look without a tail?" No one can gain the fact that the tail is a valuable ornament. The cat without one is a sorry sight. But there are those who maintain that the tail serves the cat as a sort of gyroscope, balance the body in leaping, says the Popular Science Monthly for September. This cannot be wholly true, for many cats get along very well without tails and rabbits do a lot of leaping. After all its looks as if the tail is only an ornament, unless it is a kind of safety valve for expression in exciting times.

Of course there are instances where the tail serves some purpose other than that of art. The monkey finds his useful as a sort of fly-leaf; the horse uses his as a fly-sweeper, as does the lion; the crocodile uses his for swimming, as do the seal and the turtle and other aquatic creatures; and the rattlesnake uses his for warning enemies. According to W. D. Matthews, of the American Museum of Natural History, the tail was a necessary organ for the aquatic and amphibious ancestors from which the higher animals are descended. When they took to terrestrial life and to walking on all fours, the tail became more or less superfluous.

DE PALMA WINS IN FAST TIME.

Takes Two Out of Three on Chicago Track.

Louis Chevrolet Captures Longest Event.

Dave Lewis is Close up in Every Event.

(BY A. P. NIGHT WIRE.)
CHICAGO, Sept. 3.—Winner of the first two events at 10 and 15 miles, Ralph de Palma lost the 100-mile event, the big race of the programme at Speedway Park today. He was forced to stop nineteen seconds for a change of tires in the sixty-eighth mile.

The race went to Louis Chevrolet, who covered the distance in 56:29.05. Dave Lewis finished second and De Palma third.

De Palma won the first two races after thrilling drives with Gaston Chevrolet, a brother of Louis, and Dave Lewis. Gaston Chevrolet finished second in the twenty-mile spin and Lewis second in the fifty. The Italian broke the record for the local track in both events. He negotiated the twenty miles in 11:05.07 and the fifty miles in 38.03, averaging 108 miles an hour in the first dash.

The car driven by Louis Chevrolet was forced out of the races in the eighth mile of the first event by a broken connecting rod. It was his brother's car that he drove to victory in the 100-mile race. De Palma showed the way to the Frenchman until the fifty-eighth mile.

The spectators were given a thrill near the end of the race, when Tom Tully, racing the stretch in front of the grand stands, threw a rear wheel. The car skidded towards the stands, and then Alley quickly straightened it and held to the track.

The victories in the first two events were the first De Palma ever won at the local speedway, although he has competed in nearly every race.

EARL COOPER WINS ARMY POST EVENT.

(BY A. P. NIGHT WIRE.)
TACOMA, Sept. 3.—Two laps ahead of his nearest opponent, Earl Cooper today won the 100-mile Army Post special event at the Tacoma speedway. Cliff Durant was second and A. H. Patterson third, only two seconds behind Durant.

In the twenty-five-mile challenge race between Durant and Patterson, Durant won in 17:54 minutes, averaging 107 miles an hour. Patterson took Cooper 68 minutes to negotiate the 100-mile run. Not once did he go 40 miles an hour.

In the challenge race, which came about as the result of Durant's defeat in the 100-mile race, Patterson was the last to start, but he ran a standstill five miles ahead, and completing the first lap in 1:13 m., from a standing start. He then ran the thirteen lap run fully half a mile ahead. Neither man felt the pits during the contest.

FRANK ELLIOTT GETS FIRST, UNIONTOWN.

(BY A. P. NIGHT WIRE.)
UNIONTOWN (Pa.) Sept. 3.—Frank Elliott won the 100-mile race at the Uniontown speedway today in 1:14:26. The purse was \$2500. The Oldtimer, a Ford, won the 100-mile race, beating Elliott by 1:14:26. The purse was \$2500.

Chicago Boy Wins with a Very Low Score.

Meredith Tears off Speedy Quarter-mile.

(BY A. P. NIGHT WIRE.)
ST. LOUIS (Mo.) Sept. 3.—H. Goeltz of the Chicago Athletic Association was the all-around amateur athletic champion of the United States. This was decided in the all-around championship of the national tournament of the Amateur Athletic Union here today. The contests this afternoon closed the three-day meet.

Those who entered the all-around championships and scores, with 10.00 as perfect score, follow: H. Goeltz, Chicago, A.A., 5702.166, L. Karimo, Young Men's Order, Detroit, 5577.4, C. F. O'Connor, unattached, New York, 5409.035, Chicago Athletic Association, 5511.12.

Fred W. Kelly, Los Angeles Athletic Association, 5511.12. L. Karimo, Young Men's Order, Detroit, 5577.4, C. F. O'Connor, unattached, New York, 5409.035, Chicago Athletic Association, 5511.12.

Harold E. Barron, Meadowbrook Athletic Club, Philadelphia, 5473.52. L. Karimo, Young Men's Order, Detroit, 5577.4, C. F. O'Connor, unattached, New York, 5409.035, Chicago Athletic Association, 5511.12.

Nine track and field stars contested in the ten events that comprised the all-around championship. Each event was judged on the basis of 1000 for the present world's record, or in some cases a shade better, with all marks below a certain minimum—and that a high mark-counting as zero.

Rain twice interfered with the events, and the condition of the track made new records impossible. The attendance was small.

J. Howard Berry of the Meadowbrook Athletic Club, Philadelphia, did not compete in the all-around championships, but entered the relay events.

Much interest attached to the relay races. Ted Meredith made his first appearance in the tournament today, when he ran in the last 100 yards of the quarter-mile relay. The event was won by the team of the Chicago Athletic Association. Teams of the Chicago Athletic Association also won the four-mile relay, the 100-yard relay and the two-mile relay. No records were broken in any of the relay events.

The basis of scoring events followed the same plan as the individual events. The lowest mark that counted:

RECALL CLAIMS FOR EXEMPTION

Liberty Army Men Anxious to Leave for the Front.

City's Great Send-off has a Beneficent Effect.

Federal District Board will Meet this Morning.

"We could easily have sent 30 per cent. of our quota on the first contingent to American Lake," said George J. Denis, chairman of the local exemption board last night. "I have been called on the phone all day by young men pleading to be sent with the first contingent. When they learned that this was impossible, they made a request that they be permitted to go with the second contingent, September 19. I am convinced that there is a decided change in the sentiment of the men called to service. They are beginning to realize the real import of the struggle that is impending between the United States and her allies, and the brutal autocracy of Germany. "I am satisfied that the great respect and honor tendered by the people of Los Angeles has had a decidedly beneficial effect, and has found a responsive chord in the breasts of our national defenders. The reports from all local boards are the same. Men are voluntarily withdrawing their claims for exemption and are anxious to go to the front and the spirit is, 'the sooner the better.' "The Federal district board did not hold a session yesterday, but a full meeting of the board will be held this morning. Mr. Hall will outline his plans for the exemption of all medical students and Edward Fletcher, chairman of the Agricultural Exemption Committee, will present his views on exemptions for this class. It is expected that his plan, as outlined at a previous meeting, will be modified somewhat as the majority of the board has expressed the view that at least two of his suggestions were too liberal. The board will get down to business this morning and the claims allowed or denied will be a measure towards the board's final policy on exemptions of all classes, industrial, agricultural and on dependent claims. The first contingent from Los Angeles and Southern California will leave for American Lake, Thursday evening at 6 o'clock, over the Southern Pacific coast line. The special train will stop at Ventura and Santa Barbara and pick up the men from these two cities who are to form the vanguard from this district to the great camp at American Lake, where some 60,000 men will be trained for the work of breaking the line on the western front in France.

TRAINERS ARRIVE FOR ARMY CAMP.

THIRTY-ONE OFFICERS HERE FROM SAN ANTONIO.

Seventh Regiment will Learn How the Big Game of War in Europe is Being Conducted—Reserve Corps Furnishing Men for Western Militia Units.

To train the Seventh Regiment in the latest military tactics gleaned from the battlefields of Europe, thirty-one officers from the Officers' Reserve Training Camp at Camp Travis, near San Antonio, Tex., arrived in Los Angeles yesterday. They will leave for a near-by training camp today or tomorrow, to be instructed in the tactics of the instruction of the troops there. Officers of the Officers' Reserve Corps have been scattered from the Texas training camp at various points throughout the West to instruct various National Guard units, according to the officers. They said that 193 officers had left their training camp at the same time that they did and these men have been placed in charge of National Guard troops along the coast. Capt. W. Hammer is in command of the detachment. He is composed of Capt. Young, Shelton, Ham, Mosley and Finney, Lieut. Fox, Harris, Scates, Davenport, Pleasant, Smart, Duff, Dwyer, Shaffer, Stevens, Campbell, Homer, Hill, Stiles, Hughes, Winslow, Weller, Swearingen, Cleary, Hollingsworth, Westcott, Braham, Wolf, Samson and Carter. They made their headquarters yesterday at the Hotel Hayward.

In Spite of Every Dodge. [Christian Register:] "Don't you find it hard these times to meet expenses? 'Hard? Man alive! I meet expenses at every turn.'"

Appropriating a Dream. [Tiger:] "I dreamed last night that I proposed to a beautiful girl. And what did I say?" she queried breathlessly.

WILSON TO MARCH WITH DRAFT TROOPS

OFFICIAL WASHINGTON WILL HONOR NATIONAL ARMY.

Foreign Diplomats, Cabinet Officers and Members of Congress will Participate in Pageant. "Uncle Joe" Cannon and Speaker Clark will Walk with Soldiers.

WASHINGTON, Sept. 3.—Rain or shine tomorrow, President Wilson, members of both houses of Congress, thousands of citizens, soldiers and sailors will march down Pennsylvania avenue from the Capitol to the White House in honor of the district's first quota of men for the new national army. As many of the drafted men will run into thousands—also will march. They will be accorded a

place near the President. Small banners will be used to designate the different sections, but the only flag to take the breeze as the scores of bands strike up their martial music and the great column moves forward will be the one to which the soldiers have dedicated their lives, the Stars and Stripes.

The Speaker and his predecessor gave the committee to understand that, being only 67 and 81 years old respectively, they were quite young enough to walk, or even jig a little, if necessary.

The French and Mexican ambassadors and their wives have accepted invitations, and others from the diplomatic circle are expected to participate.

The Embargo Idea. [Detroit Free Press:] "If we have anything at all that Germany needs, it is first duty is to make it absolutely sure that she cannot get it."

Carry Your Own - is the idea that has popularized the lovely new cretonne bags. In all the cities of America half the smart women own a carry-a-bag. Carry-a-bag is a big, gay cretonne bag to carry small parcels in accordance with the conservation idea—or to contain the yarn and knitting they busy themselves with in every possible moment. At the restaurant—while waiting for service—at the theater between acts, everywhere the knitting work goes on—and because the bags are very smart there's an additional incentive to carry them. For the woman who prefers to make her own bag we have these gayly colored cretonnes at 65c and 75c a yard. We are told that they are generally much higher priced about town.

PLUNGES WITH AUTO.

Head of Private Detective Agency Nearly Killed Instant Death When His Car Somersaults Down Canyon—Family Hurt to Ground.

Nick B. Harris, head of the Harris Private Detective Agency, narrowly escaped death yesterday, when returning from a deer hunting trip. His auto left the edge of the road in Santa Susanna Canyon and turned over four times until stopped by a boulder.

A passing motorist released the car to rescue Mr. Harris, who was pinned beneath it and the machine continued its descent to the bottom of the canyon, where it was wrecked. The injured man suffered a dislocation of the left shoulder and knee and possible internal injuries.

The members of his party, his wife, his mother, Mrs. D. E. Martin, and her son, Joseph Martin, were thrown from the car as it left the road, and were severely bruised. The party was taken to Chatsworth and then to Los Angeles by train.

The accident occurred when Mr. Harris was passing another machine on a narrow stretch of road.

Driver, also Hurt, Alleges No Light of Warning was Showing on Heavy Truck Which had been Left Blocking Highway—Police Start Investigation.

A loaded trailer left blocking a part of the highway near the Taylor Milling Company's plant on the San Fernando road last night sent two persons to the Receiving Hospital suffering from injuries received when their automobile crashed into the obstruction.

The injured are Miss Ethel Grant, 24 years old, of No. 1217 1/2 South Alvarado street, manager of a department of Blackstone's, and J. Arthur Scott, living at No. 808 South Flower street, manager of the Davis Manufacturing Company, No. 1218 1/2 South Flower street.

Mr. Scott was driving the car, says there were no lights on the trailer and he had no warning until his automobile hit it.

Assistant Police Surgeon Dieterle treated Miss Grant for deep lacerations of the scalp and possible internal injuries.

Detective Sidney Hickey was assigned to investigate the case.

Better Protection for Young Girls Arranged.

Policewoman and Patrolman to Check on Cafes.

Will Specialize in Juvenile Bureau Cases.

In an effort to better protect young girls from vicious influences, Policewoman Ghita Brigham and Patrolman J. W. McCauley will be detailed today by Sgt. Leo Marden, of the police juvenile bureau to especially watch dance halls, certain cabarets and the downtown streets.

Mrs. Brigham and Officer McCauley will go on duty at 5 p.m. and remain on duty until 1:30 a.m. in the morning. The assignment has been made as the result of many recent calls sent in for juvenile officers after the bureau was closed.

Numerous cases, which eventually go to the Superior courts, are lost because of the fact that the juvenile officers were off duty when the calls were received and other officers had to be detailed to the work.

Juvenile work, according to Acting Chief A. W. Murray, is of a very particular nature and requires great patience. Upon his return from an inspection of the city jails of the East, Chief Butler will consider ways and means for keeping the juvenile bureau open night and day.

PAINTERS TAKE TUMBLE.

Two painters, Paul Harrington of No. 916 Francisco street, and Allen Chisholm of No. 430 West Ninth street, were injured yesterday, when scaffolding collapsed with them at Third and Spring streets. At the Receiving Hospital they were treated by Police Surgeon Cresson.

PAGE MILITARY ACADEMY

A Big School for Little Boys

In weighing the mass of testimony concerning the merits of various schools, parents are sometimes bewildered. They are not accustomed to this kind of an investigation and hardly know how to go about it. The greatest of all authorities on this question says:

"In the choice of a private school, then, the parent having selected a school whose curriculum will give the desired training, should look to these three points and be fully informed: First, about the spirit and traditions of the school; second, the personality of the teaching staff, whose ideas and attitude towards life and ordinary everyday matters should be regarded of quite as much importance as their mastery of their subject; and third, as to the class of patronage—that is, the kind of families from which the pupils come and the consequent atmosphere that your children's associates will create."—Sargent's American Private Schools, 1917, Page 59.

Having decided to send the boy to a school for young boys, instead of to one where the high school receives the principal attention, let us take up these three fundamentals.

First: The spirit of Page Military Academy is democratic and a high class, and all boys are considered "worth while," even the uniform, well neat and attractive so that it has elicited much favorable comment by U. S. Army Officers. It is simple enough so that a boy does not dislike to wear it on the street. The boys are all well bred. An affricated old lady once said, "This is the only place where I do not dread to meet boys for fear they will be a disgrace to their parents." The boys are all well bred. An affricated old lady once said, "This is the only place where I do not dread to meet boys for fear they will be a disgrace to their parents."

Second: Compare the list of teachers in our catalogue where their names, degrees and teaching experience is minutely given with the general statement so often found without any names at all that "our teaching force is carefully chosen," etc.

Third: In any school of the better class the pupils come from good families. Doubtless a larger percentage of boys at Page come from long distances to attend school than in any of the other schools for young boys. Such boys invariably belong to the best families in their respective neighborhoods. In a few cases families have moved to Los Angeles from long distances that they might be near their young son while at Page.

All the schools want your boy. We are all in earnest, we are all honest. Everyone of us has letters from prominent men and women who speak from appreciative hearts of the work we have done. How then shall the perplexed parent decide? Why not call in an expert as you do to decide a case at law, or as you do if your child is ill?

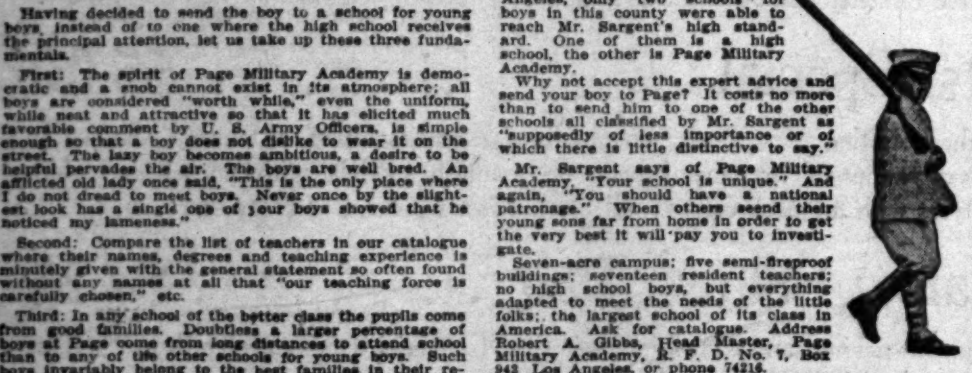

The greatest authority on American private schools is Porter E. Sargent, quoted above, who issues an annual handbook on the subject. He gathers information year after year. It is his business and he can neither be fooled, bribed nor browbeaten. A perusal of his handbook convinces one of its absolute integrity. From more than two thousand private schools, he has selected the best and as a basis for this selection he says: "Merit, as determined by the opinion of the better-informed educators who have intimate knowledge of the schools in question, has been the only deciding factor."

In spite of the high quality of all the private schools of Los Angeles, only two schools for boys in this county were able to reach Mr. Sargent's high standard. One of them is a high school, the other is Page Military Academy.

Why not accept this expert advice and send your boy to Page? It costs no more than to send him to one of the other schools all classified by Mr. Sargent as "supposedly of less importance or of which there is little distinctive to say."

Mr. Sargent says of Page Military Academy, "Your school is unique. And America's best should have your patronage." When others send their children to schools that have little to recommend, the very best it will pay you to invest in Page.

Seven-acre campus; five semi-detached buildings; seventeen resident teachers; no high school boys, but everything adapted to meet the needs of the little folks; the largest school of its class in America. But a few weeks ago the government went further and designated the U. S. Army Reserve Officers' Training Corps, U.S.A. "The means," says Capt. Easton, "the school's commandant, 'that hereafter all graduates of the school, upon reaching the age of 21, are eligible to become commissioned officers in the United States Army Officers' Reserve Corps without further examination.'"

The aim of the school is not merely to teach boys to become soldiers, but to prepare them to enter any institution of higher learning in the country or to give them a thorough and well-rounded education if immediate entrance into business life is contemplated.

In times like the present the military-trained youth has an advantage, for if he is called to the colors he will go as an officer instead of in the ranks, with consequent advantage to his country as well as to himself.

Nine colleges constitute the entire university. At the present time these colleges are somewhat scattered. The U.S.C. military unit being located at the Exposition Park, while the colleges of law and medicine are located only temporary, magnificent site with nearly 900 feet frontage having been lately purchased, connecting the present campus with Exposition Park.

For the year about to open, there are many new features. Of particular interest is the new course in military engineering, a duplicate of that given by the United States War College at Fort Leavenworth. Young engineers are in great demand, and when Europe is being rebuilt, not far in the future, the demand will be increased. U.S.C. has thoroughly equipped laboratories in various engineering specialties.

There are new heads in several of the departments. Dr. Ralph Tyler, formerly of Boston, one of America's foremost philosophers, is to assume the chair of philosophy left vacant by the death of the late Dr. James Harmon House. The new head of journalism is permanently headmaster, Prof. Ernest J. Hopkins, who succeeded Prof. Bruce Wilcox, now in New York. Other changes have been made.

Beginning with this year, expansion is being made this year in the colleges of music and oratory.

Important college of law holds the high honor of the debating championship of the United States, having defeated Columbia University and all other challengers. The standard of scholarship at the U.S.C. law college is equal to the highest in the West, and its faculty includes many of the foremost jurists in Southern California.

MARLBOROUGH SCHOOL

The Marlborough School for Girls will begin its fall term this year on the 25th inst. Mrs. George A. Caswell is principal of this institution, which is the oldest girls' school in Southern California, having been established for twenty-nine years. It is capable of accommodating thirty girls in the house and about 120 in the day school. Its success during the past year has been a credit to the school and its faculty.

Principal Caswell takes girls who are in the high school grades and carries them up through the college preparatory courses. Full graduation is one of the accomplishments possible there. The institution is a combined finishing and college preparatory school. It offers excellent courses in German, French and Latin. One of its special features is the teaching of the history of the world of business. It is a staff of experienced teachers who are specialists in their particular branches of work. The school is located at No. 5029 West Third street, and is one of the best known among similar institutions in Southern California.

BUSINESS TRAINING

That the employers of today require an efficient assistant who has been thoroughly schooled in the more modern methods and in the use of new machinery, is a fact. The business training school, therefore, is a necessity for the business short cut, such as the adding machine, mimeograph, book-keeping, stenography, telephone, banking statement machines and other office time-saving devices. For Years Supposed to be Murdered.

Today, He Himself Accused an Old Tragedy.

The remarkable career of "Bud" Terry, known as "ghost," received a new and additional chapter yesterday when he was informed that he was under arrest on a warrant issued by the sheriff of Potosi, Mo., for the murder of a woman named Mary. Terry, who was a member of the Potosi police force, was arrested on the charge of having made away with the body of the woman. SCHOOL CHILDREN GIVE TEN THOUSAND DOLLARS.

Boys and Girls Deny Themselves to Aid Starving War Orphans.

The school children of Los Angeles have saved, collected and contributed to the Fatherless Children of France Fund approximately \$10,000 between June 7 and the present. In addition to this they have been instrumental in selling Liberty bonds to the amount of \$50,000, and their collections and contributions to the Red Cross fund run into the thousands, the total not yet having been ascertained.

The plan proposed by the committee of the Fatherless Children of France Fund was to have the school children of Los Angeles contribute to the fund by selling Liberty bonds and by collecting and contributing to the Red Cross fund.

COMMERCIAL.

LOCAL PRODUCE MARKET.

Eastern jobbers are up in arms against the tuna packers of Southern California, claiming that they have formed a close combination to maintain prices unreasonably, according to reports from New York. To a lesser degree the salmon packers are under fire. There are rumors that complaints have been made against these concerns under the conspiracy phases of the law, but it cannot be traced, and some of the sharpest critics are suspiciously silent.

The peach pit, which has prevailed for the better part of a month, has been cleaned up. Where it was a fruit of fair quality could be purchased on the street at times for as low as 25 cents a box, they are hardly to be found today. Jobbers are asking 35 cents or better for shipping costs, and real fancy peaches are selling at a premium. The weak of the season for this fruit has passed. Grapes are slowly improving in quality and quantity. Prices are still somewhat fluctuating between wide margins and it is rather difficult to quote values that are absolutely accurate. Watermelons are plentiful and in good demand at 1 1/2 cents a pound as about the top price.

The market for rice has ruled firm during the past week, due to the fact that new crop rice has been coming in steadily and finding a ready market on the basis of 7 1/2 cents f.o.b. New Orleans. No new crop Honduras has been offered from Texas or Arkansas, though it is probable that the mills will start about the middle of the present month. Meanwhile, the market is strong on old crop Japan and screenings. Imported rice is being held firm at previous prices, and demand for the same appears to be little stronger if anything. As far as the California crop is concerned, it is coming along nicely, the weather having been favorable. Growers in this State are anticipating a good crop for their country, and so far this feeling has been warranted. The great increase in the use of rice in this country, which was brought about in competition with potatoes, was high, is now bearing fruit, and from all indications this increase in consumption in the United States will become larger all the time.

There were no sessions of the Produce Exchange yesterday on account of Labor Day, and no receipts were given out by the secretaries.
